Title: The Renminbi's Changing Status and The Chinese and Hong Kong Financial Systems

Editor(s): Centre for Financial Regulation and Economic Development (CFRED), Susanna S.S. Leung.

Publisher: Thomson Reuters Hong Kong Ltd. : Sweet & Maxwell

Year of Pub.: 2012

Call no. HG1285 .R465 2012

ISBN.: 9789626614525 (pbk.)

- ◆ This book explores how mainland China's gradual capital account liberalization and the growing role of Hong Kong as a leading offshore centre for RMB will affect the international monetary system, the balance of international trade, the shape of the world's banking system and securities markets, and the future monetary system of Hong Kong.

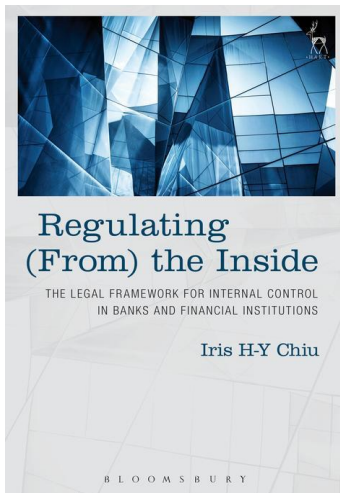

Chapters and papers are the collected expert views of authors from around the world, each working in different disciplines, addressing the main and critical aspects of the changing status of mainland China's currency and its effects on: (i) International trade; (ii) Banking; (iii) Securities markets around the world; and (iv) Hong Kong's monetary system.

The book includes the chapters on:

- Possible US Responses to China's Currency Policies: Evaluating the Options

- Is it a Good idea to Challenge China's Currency Issue in the WTO?
- China's Currency and IMF Issues
- East Asian Supply Chains and Relative Prices: A Survey of the Evidence
- Possible Problems on FDI and ODI Regulation Arising from the Liberalization of Capital Account in China and their Implications
- Taiwan's Securities Markets in the Shadow of Foreign Exchange Policies: Lessons from the Bubble in 1990s
- The Introduction of the Euro: Reasons and Effects
- Why Hong Kong can Adopt the Renminbi as Legal Tender
