

HKICPA seminar: What are the Risks and Opportunities for Managing Suppliers in China? (re-run)

Programme Code: S150622S

The seminar will discuss the risks and opportunities for managing suppliers in China. The speaker will assess the impact of the recent geo-political and economic power shifts currently playing out and determining what the future holds.

With the Chinese economy entering a transition in the next decade, a solid understanding of risks and opportunities across the country's regions and sectors becomes critical to business success. Following a brief overview of the global economic context, the speaker will look at what lies in store for China in the next five to ten years, with a focus on regional economic developments and industry dynamics.

The speaker will integrate economic data with experience in the field based on 1000 interviews with Chinese manufacturers in the consumer electronics industry conducted in April 2015.

The highlights of this seminar are as follows:

- Major macro economic shifts playing out in the region, including Asian growth opportunities and the challenges; risk issues associated with exports, borrowing, infrastructure demands; China – long term problems and opportunities.
- Updated evidence from the field - Summary of the China supplier 1000 project - including the major challenges facing Chinese manufacturers in electronics, building and kitchen products and fashion industries and how they are responding to these challenges – based on interviews with 1000 suppliers in April 2015.

Date	Monday, 22 June 2015
