Technical Update Evenings

Technical Update Evenings (TUE) is a programme of regular evening learning sessions held by the Institute to provide comprehensive training to members to build up knowledge on current financial reporting and auditing issues. In each session, TUE aims to help members explore key areas of complexity within the standards and to increase members' abilities to deal with issues arising from the application of standards and get more knowledge on new topics.

The programme covers current standards but puts particular emphasis on those that have been identified as having particular application issues.

Revised Small and Medium-sized Entity Financial Reporting Framework and Financial Reporting Standard

Programme Code: [TUE140513]

In July 2012, a new Hong Kong Companies Ordinance (CO), Cap.622, was enacted. The new CO simplifies the reporting requirements for non-public companies by allowing additional non-public companies to prepare simplified financial statements (i.e. the use of SME-FRF & SME-FRS), by opting out of the full reporting regime.

In response to the new CO, the Institute has issued the SME-FRF & SME-FRS (Revised). The revised standard has incorporated the proposed amendments in the 2008 Exposure Draft and the 2013 limited invitation to comment, modified to reflect the comments received on those consultations duly considered by the Institute's Financial Reporting Standards Committee. In addition, the revised standard takes into account developments in the terminology and guidance available in full HKFRS since the 2008 Exposure Draft, to the extent relevant to the SME-FRF & SME-FRS, as well as reflecting the new qualifying criteria introduced in the new CO.

This seminar aims to outline the qualifying criteria and the main changes of the standard.
