

Technical Update Evenings

Technical Update Evenings (TUE) is a programme of regular evening learning sessions held by the Institute to provide comprehensive training to members to build up knowledge on current financial reporting and auditing issues. In each session, TUE aims to help members explore key areas of complexity within the standards and to increase members' abilities to deal with issues arising from the application of standards and get more knowledge on new topics.

The programme covers current standards but puts particular emphasis on those that have been identified as having particular application issues.

Basic principles and insights on Fair value measurements

Programme Code: TUE140207 (TUE1402)

The measurement of fair value under HKFRS may not be an easy task as often times it requires judgment from the management team. HKFRS 13 is a standard which defines fair value and provides guidance, under a principles-based framework, on how to measure fair value under HKFRS where entities are permitted or required to measure or disclose the fair value of assets, liabilities, or equity instruments. This seminar aims to outline the basic principles of HKFRS 13 and provide some insights on measurement of fair value from a valuer's perspective.
