

Professional Interest Groups

The HKICPA currently has five professional interest groups, each of which operates under the auspices of a Standing Committee as detailed in the table below. The objectives of the interest groups are:

1. To provide an informal forum for members working in the same sector to exchange views and discuss matters of mutual professional interest and concern;
2. To act as a resource group upon which the Council and the relevant committee of the HKICPA can draw;
3. To provide a conduit for bringing to the attention of the Council/ relevant committee the concerns of interest group members in the relevant industry sector; and
4. To provide professional development in areas of specific relevance to the members of the interest group.
