

## Bad Weather Arrangement for Practical Training Function

All scheduled Practical Training Functions will be cancelled when Tropical Cyclone Warning Signal No. 8 or higher or Black Rainstorm Warning is hoisted. Cancelled programmes will be postponed to a date to be fixed and participants will be advised accordingly. The table below sets out the different scenarios when Practical Training Functions are affected by bad weather. In case of uncertainty, participants may telephone **2287 7236 or 2287 7099** where a recorded announcement will be made as soon as practicable. When the weather is bad, participants are advised to find out the latest weather condition via weather reports on radio, television and internet before leaving for Practical Training Functions.
