The offer is available to new service subscribers and port-in customer only.

Customers are required to subscribe to a designated monthly plan. Service can only be used within designated regions and networks. (designated regions and roaming providers are subject to change without notice). Operators in designated destinations provide 5G/4G roaming service, subject to various factors such as coverage by individual mobile operators, system compatibility, network settings and configurations, the specifications of mobile devices and other relevant factors. China Broadnet does not provide inbound roaming service. Terms and conditions apply.

For details, please contact the 3Business Account Manager.
