From “HKFRS 16: How to apply and specific issues”, I further developed my skills in applying the Standard through a range of illustrative examples and exercises. The workshop also shared application tips on major implementation challenges, including determining discount rates and lease terms and accounting for modification. After the workshop, I had a clearer idea on the requirements of HKFRS 16 and how these differ from HKAS 17.

As my work involving reviewing financial statements and annual reports, I gained further knowledge in the ESG reporting from preparing the seminar on ESG Assurance Reporting in Hong Kong.

#### Risk management

“Executive Programme for Accountants Risk Management” strengthened my knowledge on the principles of risk management, and the risk management process. Also, the case studies of the risk management tools like root cause analysis, SWOT analysis, provided insights to my current work.

#### Interpersonal and communication

“Negotiation Skills for Assurance” helped me communicate with other parties more effectively and appropriately. It introduced to me how to get the most out of negotiations by creating a winning proposition for both sides. I also explored methods for successful conflict resolution and understand the impact of cultural differences in the negotiation process.
