

PAIB Networking Cocktail on the Theme of Mentorship

About the programme

The professional accountants in business (PAIB) leadership panel is exploring the idea of a mentorship programme to facilitate experience sharing between well-established, successful members from the business sector and younger members of the Institute, at an early stage in their career development. Through mentorship, members who possess invaluable working, community and life experience can contribute to the profession by advising younger members on their career and professional development, and how to improve their communication and leadership skills. Mentors, meanwhile, can gain a better understanding of the issues affecting younger members and their views and concerns. At this event, prominent guest speakers will share some of their work and life experiences, and their perspective on the benefits of a mentorship programme.
