

Cybercrime from the law enforcement perspective

About the topic

The prevalence of technology crimes has surged significantly in recent years, even though the overall crime rate has dropped. These kinds of cybercrimes are always viewed as the hardest cases to detect and to crack.

In this seminar, the speaker will talk about the focus of law enforcement agencies in the context of investigations into cybercrime, and discuss some of the difficulties faced by the agencies.

About the event

About the speaker

Dr. Frank Law has been working in the Hong Kong Police Force since 1998, and has been involved in technology crime related policing since 2001. He has been attached to the Technology Crime Division of Hong Kong Police for about 11 years, and had been responsible in the areas of technology crime investigation, computer forensics training and cyber security.

Frank has been responsible for facilitating IT crime investigation and computer forensics training programs on behalf of the Interpol Expert Group on IT Crime (Asia and South Pacific), and has led regional training programs in Korea, Japan, Australia, Thailand and Fiji. He has also delivered presentations at many international computer crime related conferences. In 2009, he was awarded with the "Information Security Leadership Award" by (ISC) 2 in recognition of his outstanding leadership and achievements in workforce improvement of information security professionals in the Asia-Pacific region. He was previously the president of the High Technology Crime Investigation Association (HTCIA) Asia Pacific Chapter.

Frank is a CISSP and holds a PhD in Computer Science. His research interests include live systems forensics, digital forensics and digital timestamp analysis.
