Why Do We Report?

Company values to honor our commitments to our stakeholders

有關溝通及呈報的承諾

- 建立開放渠道，聆聽業務有關人士發表的意見，並就這些意見作定期檢討及回應。
- 保持充分、有效的財務及內部監控措施。
- 編製及呈交有關公司業務、管理、財務狀況、業績和其他方面的報告，提供全面、公平、真實、準確和簡明的資料。這些報告必須根據適用法例、專業會計標準及公司掛牌的所有證券交易所的規定，定期或在適當時候作出公布。
- 定期就以下事項進行匯報：
 - 可能對員工、客戶、投資者、合作夥伴、環境、社群或其他業務有關人士構成影響的業務轉變。
 - 公司業務對經濟、社會和環境所構成的影響。
 - 業務表現目標、策略和進展。

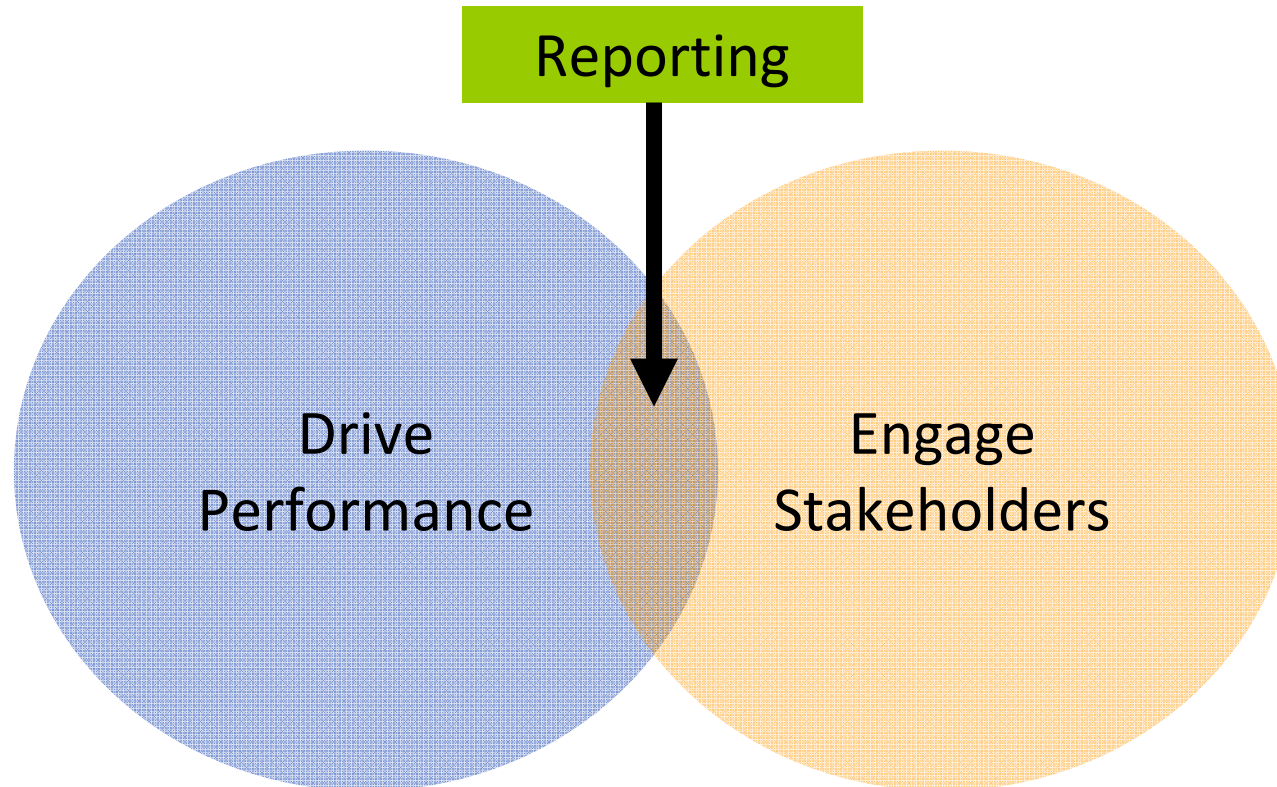

On Communications and Reporting

- Open channels for input from our stakeholders, with regular review of and response to that input.
- Maintenance of adequate and effective financial and internal controls.
- Preparation and presentation of reports containing full, fair, true, accurate and understandable information including but not limited to the business and management of the Company, its financial position and results of operations, published regularly or otherwise in a timely fashion, in accordance with all applicable laws, professional accounting standards and the requirements of all stock exchanges on which securities of the Company are listed.
- Regular communication on:
 - changes in our operations that may affect employees, customers, investors, partners, the environment, the community, or other stakeholders.
 - the economic, social and environmental impact of our business.
 - corporate performance goals, strategy, and progress.

CLP Value Framework

Why Do We Report?

Reporting **contributes to risk management**, e.g. regulatory compliance, reduce exposure to regulatory risks and enhances corporate reputation

Why Do We Report?

Carbon Monitoring for Action (CARMA): Climate Campaign Built on Questionable Data

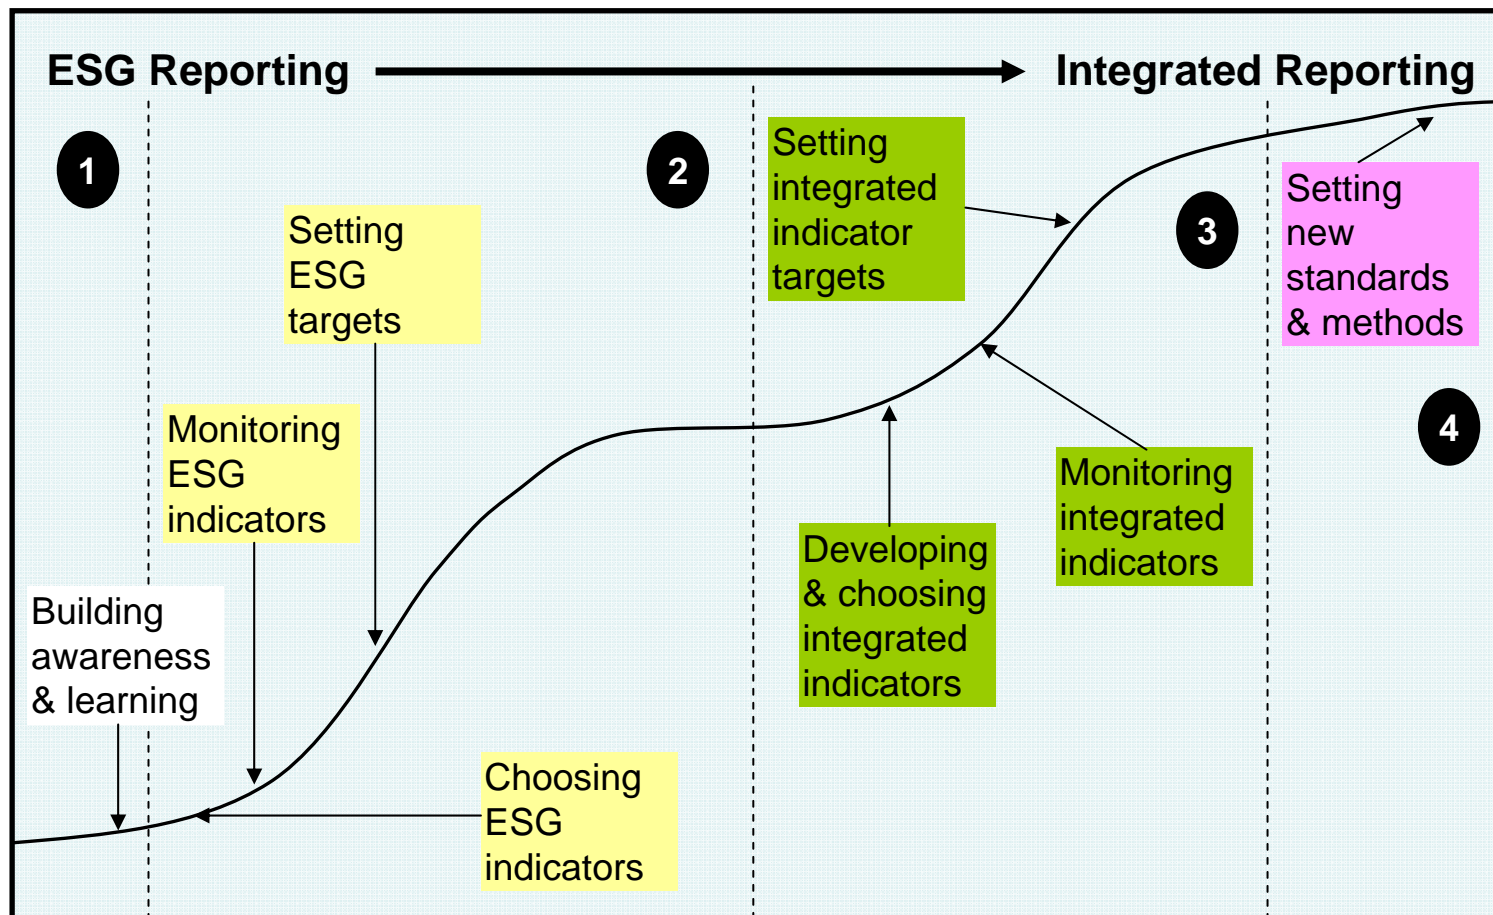

A Due Diligence Report on CARMA's Data and Methodology

Abstract

This due diligence report shows that the popular climate management initiative Carbon Monitoring for Action (CARMA) run by a prominent Washington DC based think-tank, the Center for Global Development (CGD,) utilizes erroneous and questionable CO₂ emissions data to rank power plants and motivate public activism. The report concludes that CARMA's data are unfit for policy and business decisions. Our conclusions are derived from comparative analysis of CARMA and United States Environmental Protection Agency's (USEPA) data at the level of each power plant, and it shows that more

Unfortunately, retractions are rare and damage already done..
