

HKICPA workshop: **Strategic planning: a finance team perspective**

Programme Code: W140531AS

Strategic planning is most simply defined as being concerned with management planning into the medium to long-term future and is concerned with vision, leadership and means to realize objectives.

Successful companies can perceive their objectives as future reality waiting to be achieved. This is sometimes known as envisioning, i.e., the planning to visualize and anticipate the kind of environment in which the business will need to operate in the future.
