

Costing Techniques from ABC to ZBC - Features & Benefits, Facts & Traps

Programme Code: W130419S

This fast-paced workshop has a topic range that gives maximum attention to the four major costing systems, processes and techniques of,

Activity Based Costing; LEAN Accounting; Standard Costing; Zero Based Costing

Delegates will examine how each of these four systems works, the features and benefits as well as disadvantages and limitations. Examples will be discussed, taken from experienced real-world companies showing how problems have been overcome from a practical application of costing techniques.

Costing is not simply a case of collecting costs in accounting buckets and just summing them, nor does it need to be so complex that it becomes meaningless to managers. From this workshop delegates will understand the importance of accurate costing, how to identify the features of each of the four major systems as well as becoming able to use costing data to improve productivity and efficiency.
