About ITIG Technology Forum Talk ("TFT")

Starting in 2004, in order for ITIG members to continue to be at the forefront of information technology, your ITIG has specially created the Technology Forum Talk ("TFT") which will take place monthly on a Friday evening at the HKICPA Conference Room. The Forum will consist of a series of talks given by the Hong Kong and overseas IT experts on delivering what's new in IT in HK or in global markets, so that members are well aware of the latest world trends so as to appropriately position themselves in the market place.

About the "TFT" topic on 16 March 2004

Gadget [ga'dget], noun

- 1 a small mechanical device or appliance;
- 2 any object that is interesting for its ingenuity or novelty rather than for its practical use.

Mr. Victor Tan will share his experience on the usage of gadgets and will discuss with participants on what they think are the practical uses of such.
