#### ***About ITIG Technology Forum Talk ("TFT")***

Starting in 2004, in order for ITIG members to continue to be at the forefront of information technology, your ITIG has specially created the Technology Forum Talk ("TFT") which will take place monthly on a Friday evening at the HKICPA Conference Room. The Forum will consist of a series of talks given by the Hong Kong and overseas IT experts on delivering what's new in IT in HK or in global markets, so that members are well aware of the latest world trends so as to appropriately position themselves in the market place. For our first TFT session, we have invited a reputable expert in the IT security field to share with us current IT trends.

#### ***About the "TFT" topic on 13 February 2004***

Mr. Michael Yung will share his view on a few hot technology topics such as mobile computing, digital imaging, and Internet technology. In the Forum, Michael will also suggest what gadgets you shall buy in 2004 to gear up your IT toolbox.

#### ***About the Speaker***

Michael has almost two decades of experience in Information Technology and spent the last 9 years in Internet and web technologies. He has developed many sophisticated IT systems for corporations in the region including A.S. Watsons, HIT, Cathay Pacific, SingTel, Caltex, and Tradelink. He is currently the Project Director of one of the biggest e-Government projects in the world, which is the flagship project of the HKSAR Government's Digital 21 initiative.
