

Accountants' role in combating money laundering and terrorist financing

打擊清洗黑錢及恐怖分子融資活動 – 會計師的角色

About the seminar

Accountants, lawyers and other "designated non-financial businesses and professions" (DNFBP) are seen as playing an important role internationally in combating money laundering and terrorist financing. The Financial Action Task Force (FATF), the international standard setter in this area, looks to DNFBPs, in addition to financial institutions, as a vital part of the defence against this form of criminal abuse of the financial system. DNFBP, therefore, need to be alert and implement effective controls, including customer due diligence and record keeping, to assist them in documenting and reporting suspicious transactions.

This update seminar, one of a series initiated by the Security Bureau for DNFBP, aims to:

- Provide an overview of the latest AML developments in Hong Kong and internationally.
- Enhance understanding of the statutory obligations and practices of suspicious transaction reporting.
- Provide a forum for discussion of matters of common concern on AML compliance and reporting.
