

## Certificate in INTERNATIONAL TREASURY MANAGEMENT

Treasury management with an international perspective that delivers comprehensive knowledge and skills you can put to immediate use. CertITM introduces the language and core technical concepts of treasury, integrating them in a way that is relevant and portable between roles, organisations and locations worldwide.

### Who is it for?

CertITM will deliver on your career needs and goals if you:

- are in the early stages of your treasury career or want to join a treasury or corporate finance team and need to develop your skills to progress
- want to advance your treasury career and consolidate your knowledge and experience with a qualification that demonstrates your dedication and expertise
- need to understand the wider issues facing corporate financiers, risk managers and treasurers as part of your business education
- perform an advisory or consultancy role where you deal with treasury matters and need to appreciate the corporate context

## Why study CertITM?

- To gain a clear understanding of the essential principles and skills of international treasury that you can put to immediate use in your current role
- Enhance your career with a certified professional qualification from the leading provider of international treasury education
- Be eligible to become an affiliate member of the ACT which offers continuous professional development and networking opportunities

### What will you learn?

- A 'big picture' understanding of how treasury is linked to all aspects of an organisation
- Manage specific risks using a variety of financial instruments.
- Ability to implement a financial risk management framework into your organisation
- Identify alternate treasury structures, and assess and recommend the most appropriate for your organisation
- Assess alternate sources of finance for your organisation, identifying the risks and benefits of each in support of the business' strategy
- Understand the importance of treasury policies and controls, and develop an effective reporting interface with the Board of Directors
- You'll gain the skills and confidence to actively contribute to the financial decision-making process of your organisation

## "EMPLOYERS WILL BENEFIT FROM A FRESH APPLICATION OF THEORETICAL KNOWLEDGE IN THE WORKPLACE."
