Technical Update Evenings

Technical Update Evenings (TUE) is a programme of regular evening training sessions held by the Institute to provide comprehensive training to members to build up knowledge on current financial reporting and auditing issues. In each session, TUE aims to help members explore key areas of complexity within the standards and to increase members' abilities to deal with issues arising from the application of standards and get more knowledge on new topics.

The programme covers current standards but puts particular emphasis on those that have been identified as having particular application issues.

- Sessions will be held to introduce the revised APM and the new requirements under the Clarified Hong Kong Standards on Auditing and how they affect audit engagements of non-listed entities.
- The training workshops are planned to refresh audit skills in risk assessment and risk response. Sessions on how to navigate the excel based audit programmes contained in the revised APM will also be included.

Participants are required to bring along their revised APM (either hardcopy or softcopy) for case illustrations.
