# **Workshop on Quality Control**

The Institute's new edition of A Guide to Quality Control ("Guide") was issued in June 2013. The Guide focuses primarily on the development of a firm-wide quality control system. This sets the foundation for the existence of appropriate firm policies that should assist and enable the practitioner to implement the engagement-level requirements.

- The training workshops are planned to introduce the new Guide and the general requirements under the Clarified Hong Kong Standard on Quality Control 1 and the common findings under the Practice Review in relation to quality control.
- Sessions will be held to introduce sample policies and procedures for different sizes of practice that can be used as a starting point in developing a customised quality control on a consistent basis.

Participants are encouraged to bring along their new edition of "A Guide to Quality Control" (either hardcopy or softcopy) for illustrations.
